EDUCATION

University of Chicago

A.B. Economics, minor in Data Science, 3.81 GPA

Chicago, IL

June 2024

EXPERIENCE

Archetype

New York, NY

Research Analyst -> Analyst -> Associate -> Principal

October 2023 — Present

- Investments: [TACEO](#), [Turnkey](#) | Other portcos I've worked closely with: [Ritual](#), [Opacity](#), [Odyn](#)
- Conduct sourcing, diligence, and decision for investments in Archetype's Fund II & III, most focused on applied cryptography
- Wrote the 3-part "Privacy 2.0" series on PETs (TEEs, MPC, FHE) and co-authored investment theses on [archetype.fund](#)
- Built, deployed, and maintain a firm-wide Slack AI agent on DigitalOcean Kubernetes, plus its 20-skill local sidekick toolkit
- Work with Archetype's portfolio companies across funds to direct strategy on product, marketing, and engineering
- Forecasted the results of the USBTC - Hut8 merger in the context of BTC, HPC/AI, and power grid pricing dynamics

Galaxy

New York, NY

Analyst - Ventures Team

June 2022 — August 2022; June 2023 — August 2023

- Conducted market sourcing, diligence, and decision for technical investments in Galaxy's Principal Investments Fund
- Researched a [taxonomy](#) of Move based chains as part of diligence into Mysten's Series A fundraising round in 2022
- Analyzed cross-chain stablecoin bridging and modeled impermanent loss between staking and providing AMM liquidity
- Wrote future-facing theses on mech design for Proposer-Builder separated fee markets and protocols in response to MEV

Benzinga Crypto

Detroit, MI (Remote)

Blockchain Analyst

January 2022 — June 2022

- Wrote a range of educational content on blockchain, DeFi, and Web3 spanning technical topics such as IPFS and ZK Proofs
- Researched trends in the blockchain space to produce comparative content, specifically looking at investment opportunities
- Used Glassnode's on-chain data analytics to generate graphics and keywords to maximize traffic to articles

Flipside Crypto

Boston, MA

Data Science

May 2021 — September 2021

- Conducted an analysis of cross-chain Ethereum bridges and price data, which was published in OurNetwork Issue #91
- Developed bounties and evaluated submissions for 3100+ community researchers on Compound, Uniswap, and Yearn
- Learned SQL and web scraping to validate and update tokenomic data on Snowflake across multiple blockchains and protocols

LEADERSHIP & EXTRACURRICULAR

ChicagoDAO

Chicago, IL

External Governance Team, Maker Lead

March 2022 — June 2024

- Managed DAO's Uniswap, Compound, and MakerDAO token delegations, evaluating and designing governance proposals
- Worked with Prof. Anthony Lee Zhang to create and maintain relations with alumni in crypto + decentralized systems

Blockchain Chicago

Chicago, IL

Co-Founder, Instructor

August 2021 — June 2024

- Built development and business curriculum in collaboration with other universities' clubs to support members' DeFi literacy
- Outlined DAO for post-education ventures and collaborations with blockchain clubs at Booth and UChicago's Law School

Oeconomica

Chicago, IL

Researcher, Labor and Consumption Cohort

October 2021 — February 2022

- Design and co-authored an original research paper on topics related to labor and consumption impacts downstream of COVID
- Honed econometric and data analysis skills (in R) to evaluate economic literature and validate potential research methods
